3 RESULTS AND DISCUSSION

3.1 Equations, symbols and units

Number equations with an Arabic number enclosed in parentheses, placed flush right. Allow one blank line above and one below each equation. For example:

$$\vec{q}_r = -4\pi r^2 k \frac{dT}{dr} \quad (1)$$

When referring to an equation in the text write Eq. (1), except at the beginning of a sentence, where Equation (1) should be used.

Symbols should be italicized throughout the text. Define all symbols as they appear in the text. A nomenclature section is not necessary.

All data, including those shown in tables and figures, must be reported in SI units.

3.2 Figures and tables

Figures and tables should be inserted as close as possible to their mention in the text. Enclosed text and symbols must be clearly readable; avoid small symbols. Supply good quality pictures and illustrations.

Figures and tables and their captions should be centered in the text. Place figure caption below the figure, leaving one blank line between them. Place table title above the table, also leaving one blank line between them. Leave one blank line between the table or figure and the adjacent text. Color figures can be used. Number figures and tables consecutively using Arabic numerals (e.g., Figure 1, Figure 2, Table 1, Table 2). Refer to them in the text as Table 1 and Fig. 1 (except at the beginning of a sentence, where Figure 1 should be used).

Tabela 1: INPUT PARAMETERS

Method LJ	Configuration	Method R2W	Configuration
k_1 (W/mK)	[0, 0; 0, 1]	k_1 (W/mK)	[0, 0; 0, 1]
k_2 (W/mK)	[0, 0; 0, 1]	k_2 (W/mK)	[0, 0; 0, 1]
n	1, 0	n	1, 0

Label coordinates in plots and add the corresponding units. Similarly, label columns/rows in tables and add the units.

3.3 Permission

You are responsible for making sure that you have the right to publish everything in your paper. If you use material from a copyrighted source, you may need to obtain permission from the copyright holder.

A direct quotation will be shown like this: (Arslan and Hansen, 1996). And, the indirect citation will be shown like this: Arslan and Hansen (1996).

Include your reference in the eamc-ref.bib file.

5 CONCLUSIONS

This section should be included and need to show the main contributions of the paper in a briefly form.
